## For Small Groups: A BRAND NEW PRODUCT

### GroupScan at-a-glance

Guessing is over.

**GroupScan**, a new Ascending Leaders measurement tool, reveals exactly where your small group falls in the four stages of discipleship — and what they most need next to grow deeper in faith.

[Learn more inside](#)

You lead a small group.  
Do you really know where they stand?

**GroupScan\*** answers that.

This new Ascending Leaders tool lets every member take a quick measurement, revealing where your group actually falls across the four stages of discipleship.

No more guessing. Give your meeting times a renewed purpose.

You'll get real data — and real, tangible next steps to help your people grow deeper, together.

Discipleship deserves more than assumptions.

**GroupScan is here.  
See your group clearly.  
Lead them forward.**

## Discipleship Dialogues videos now translated into Spanish, Nepali, and Hindi

These translations need to be widely distributed in order to serve pastors who speak these languages.

## Digging Discipleship Deeper

In July, we held three global discipleship trainings for pastors and congregation leaders. One was in a new city for us with a new, budding Discipleship Coach providing some of the training alongside our veteran Discipleship Coach.

“A lot of ministries all over the world struggle with how to increase heart-invested, active followers of Christ. They want to do that, they hope to do it, but they are not hitting it directly like you are. You have figured out how to do it and are doing it. It's really wonderful and amazing.”
